Gas/Biofuel/Suspended Units - Catalogue

Ecofire Introduction

The success of Ecofire South Africa is based on high-end production of top quality products, cutting-edge research and development, and a constant collaboration with our customers.

Satisfaction of our customers is our main goal and we work every day to establish quality and long-term relationships with our customers, whose trust we gain with the consistent quality of our products and attention to detail with installation.

Ecofire offers a wide variety of gas and biofuel units, 70% are manufactured locally and 30% being imports. Both vent free gas & flued gas systems, depending on application required.

The ranges are well represented in our Fourways store, all products come with a 3/5 year warranty.

Kratki Delta Flat

The Delta Flat is part of Kratki's bioethanol fireplace range. This wall-mounted unit is a good option for those looking to add some ambience to their space.

It's also a popular choice for heating bedrooms or smaller apartments. The installation is simple – simply hang on the wall using the two mounting screws.

ecofire

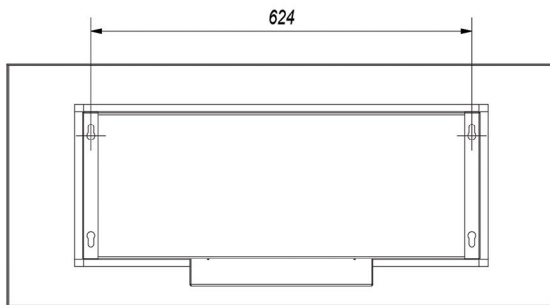

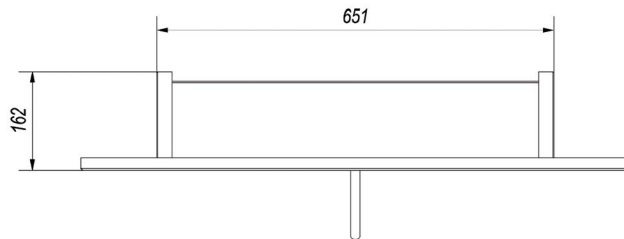

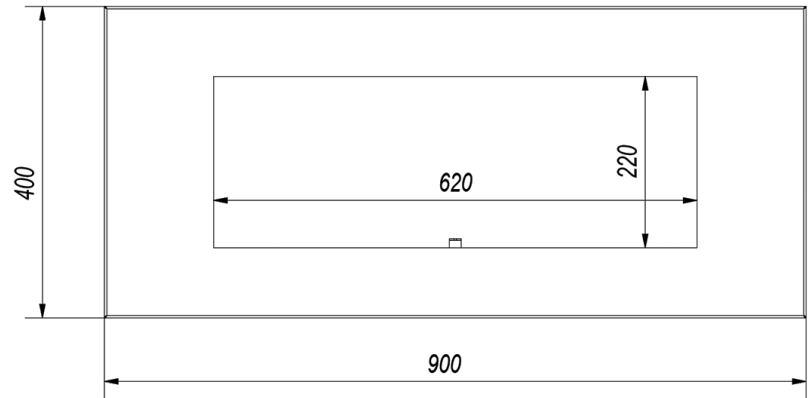

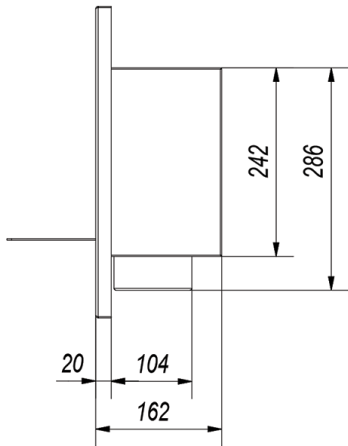

Kratki Delta 2 Black

The Delta 2 Black is part of our bioethanol range. This wall-mounted unit with its simple and modern design is a good option for those looking to add some ambience to their room or outdoor space.

While it does provide some heat, it's not enough to be felt in a large area. It is easy to use and, because it does not give off harmful emissions, there is no need for a chimney, making it easy to install on nearly any wall.

ecofire

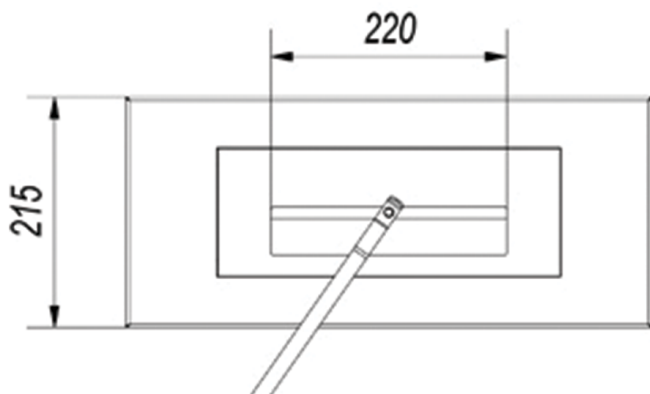

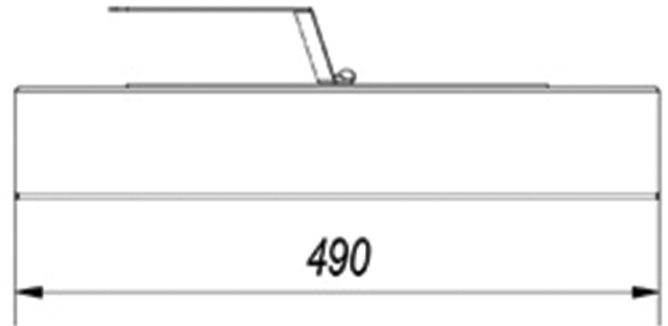

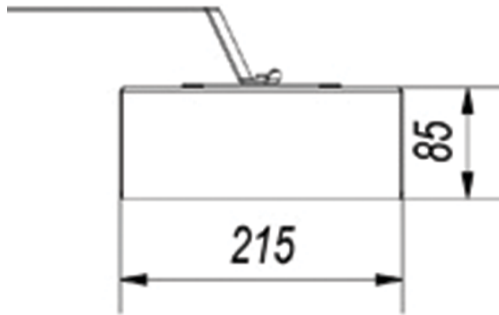

Kratki India Black

The India Black is part of Kratki's bioethanol fireplace range. It features a modern, compact, freestanding design which is dynamic because it can be moved from one area to another as per occasion, and when it is not lit. It can be positioned in a variety of creative settings to create a luminous display of light. It's very easy to use; it doesn't give off harmful emissions and there is no need for a chimney or installation. It's a great option for enhancing the ambience of your outdoor entertainment or dining area. While it provides some heat, the warmth is not enough to be felt in a large room and therefore it should not be used as the main source for heat.

ecofire

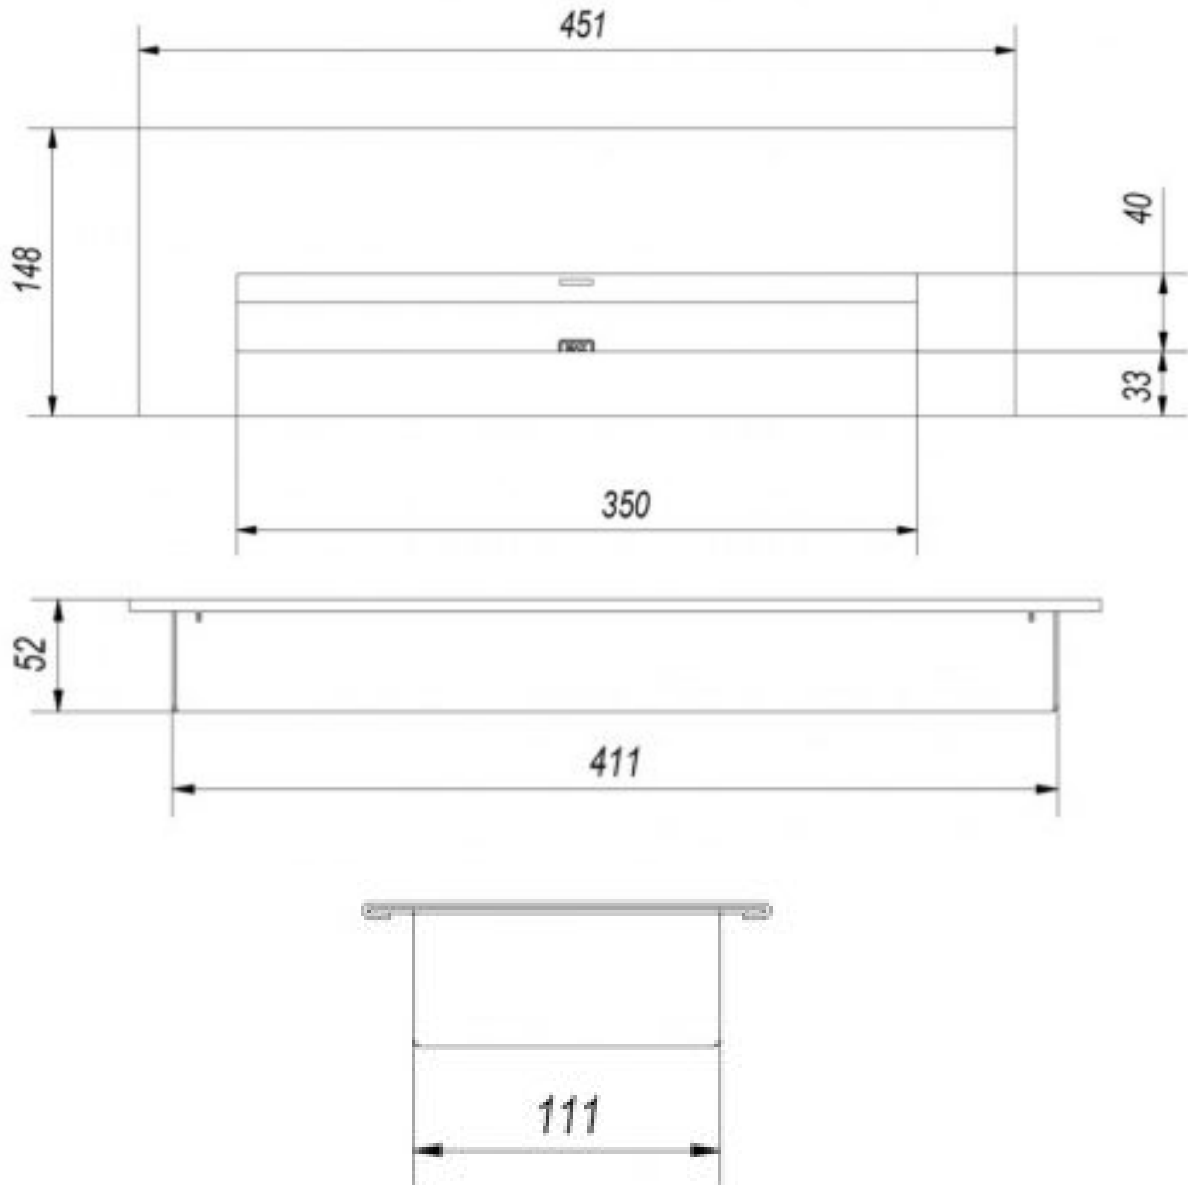

Kratki Biofuel 451

The BIOFUEL 451 is part of Kratki's drop-in bioethanol fireplace range. This biofuel container is a good option for those looking to add some ambience to their indoor or outdoor space.

While it does provide some heat, it is not enough to be felt in a large area. It is easy to use and, because it does not give off harmful emissions, there's no need for a chimney, making it easy to install into any non-flammable plinth or ledge.

ecofire

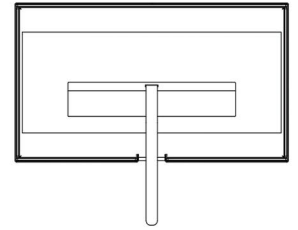

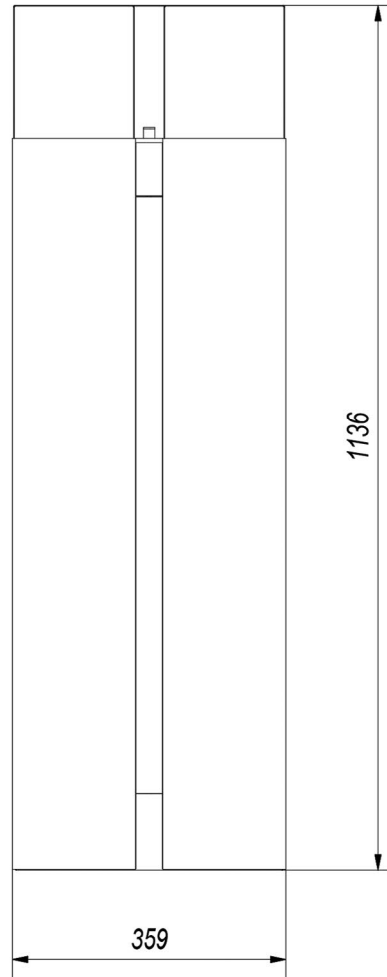

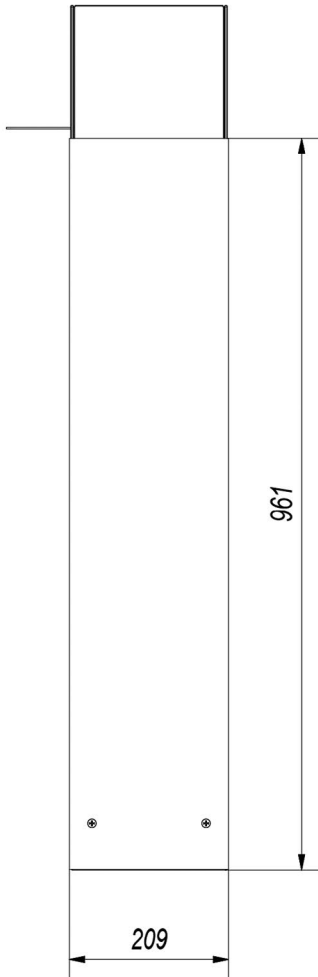

Kratki Romeo Biofuel

The Kratki ROMEO is part of our bioethanol range and is a good option for those looking to add some ambience to their room, patio or outdoor space.

While it does provide some heat, it's not enough to be felt in a large area. It is easy to use and, because it does not give off harmful emissions.

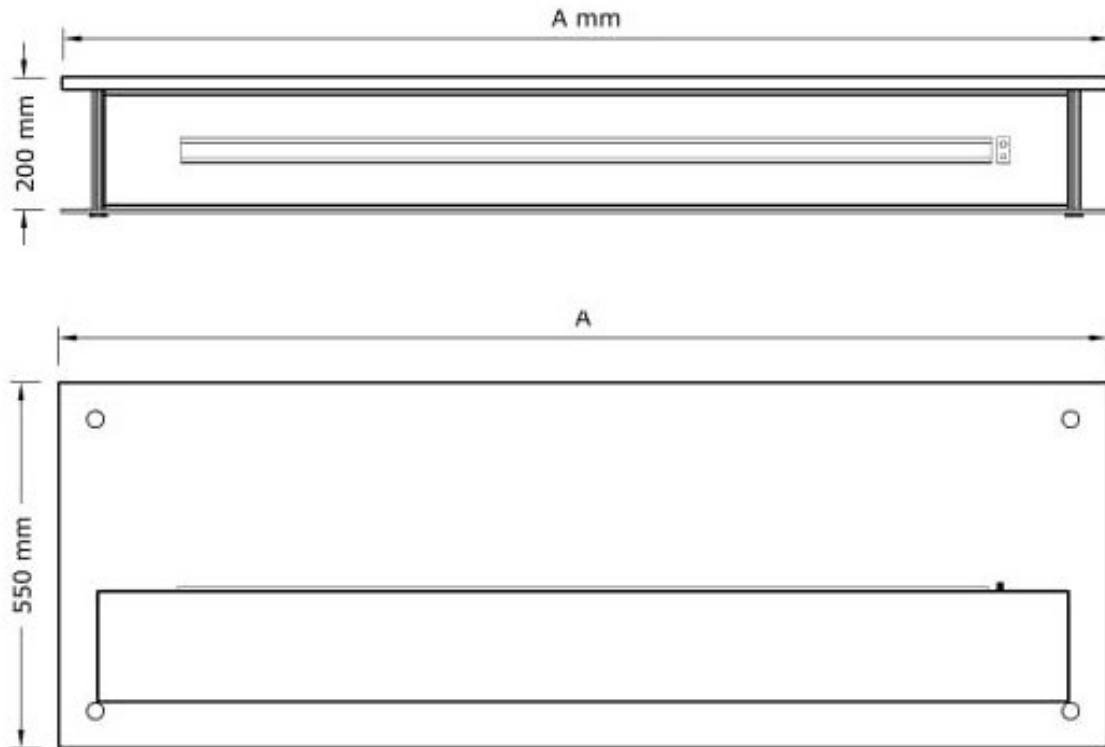

Vision WallArt

900 mm - 1200mm - 1500mm

The Vision wall art is a beautiful modern vent free fireplace. Designed with a focus on ease of installation, the Vision wall art requires no special framing and can be mounted quickly to an existing wall with it's simple mounting bracket.

With virtually endless installation possibilities, it's almost as easy as hanging a picture on the wall. The rear panel can be customized with your own laser design.

Kratki Patio M Gas

The Kratki Patio M is a modern and luxurious open gas fireplace. This freestanding, vent free gas fireplace is mobile (hidden wheels allow it to be easily moved over flat surfaces).

The base conceals the space provided for a 9kg gas bottle. This powerful 8.2 kW fireplace offers convenient and instant heat.

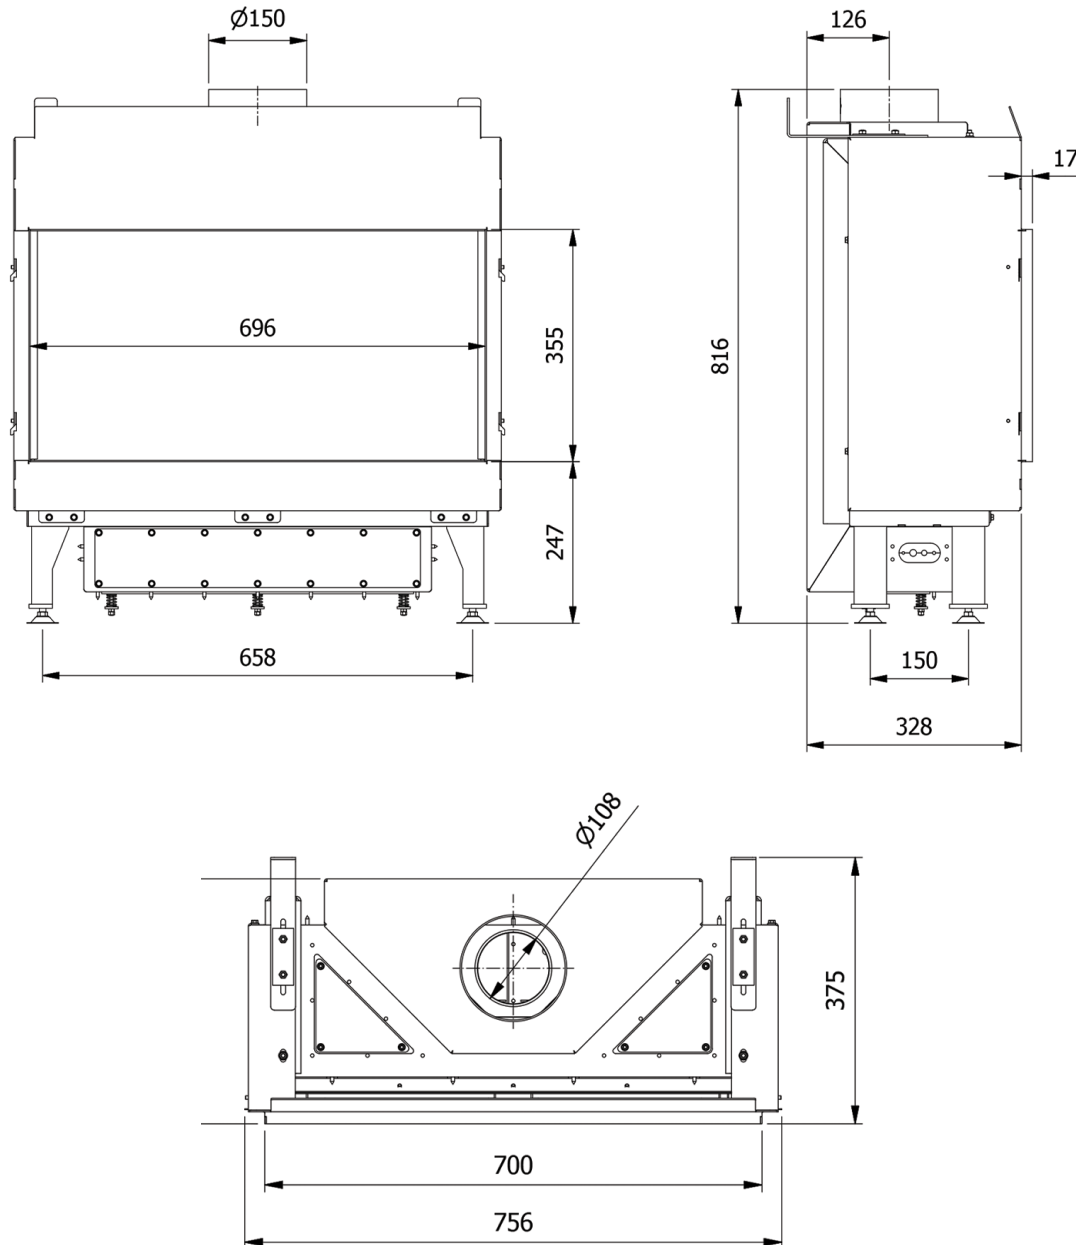

Kratki Leo 70

The Kratki Leo 70 is modern and luxurious closed combustion gas fireplace. It's design offers a wide and clear view of the flames.

The coaxial flue pipe systems ensure that this gas fireplace is a sealed and safe system.

The sleek design comes with a digital hand held remote and realistic ceramic logs.

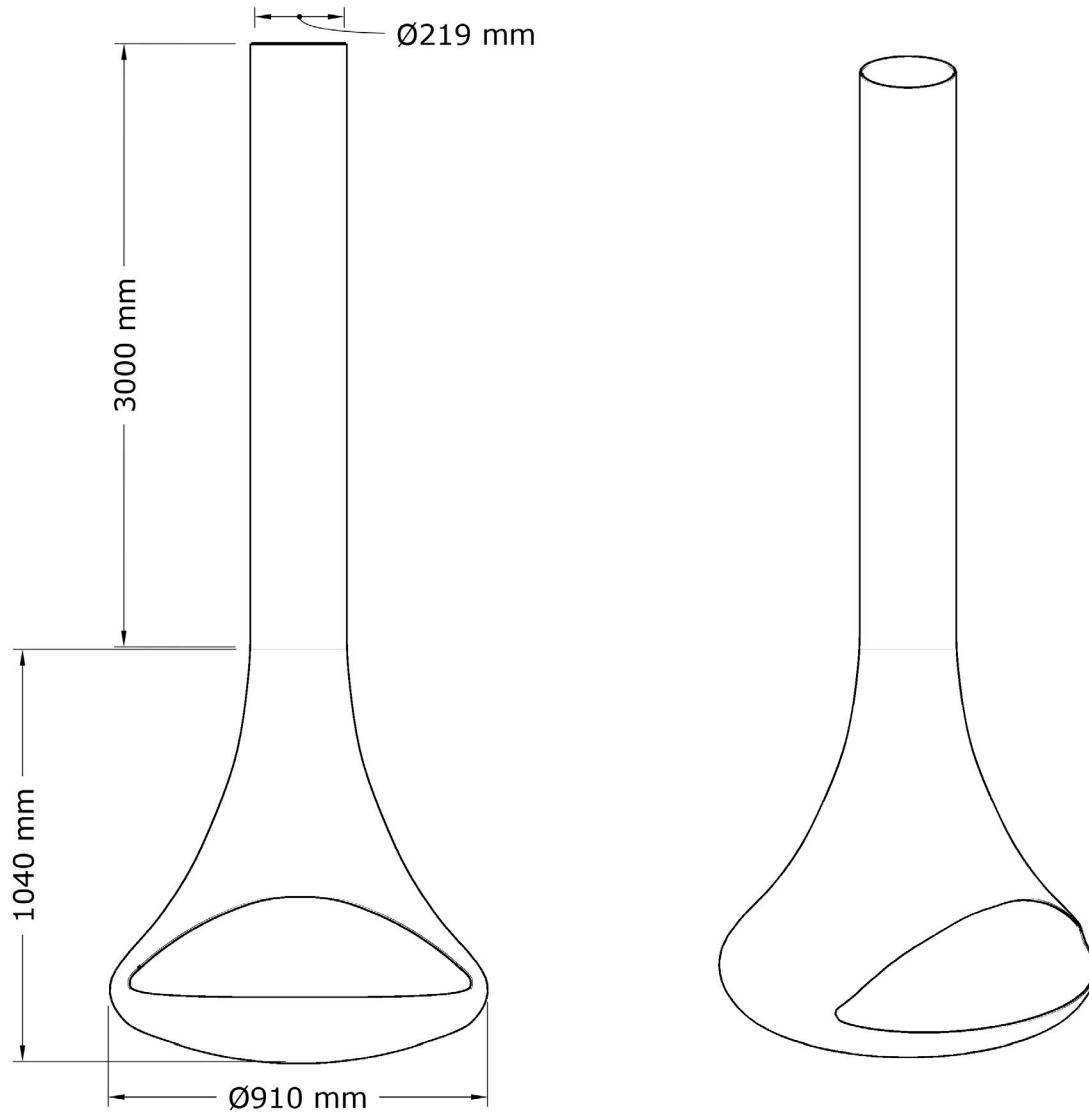

Teardrop Suspended Fireplace

Merging tradition with the opportunities and potential of modern life.

Perfect as both a modern indoor fireplace or on the deck, this suspended fireplace is available as both wood burning or bioethanol fuelled.

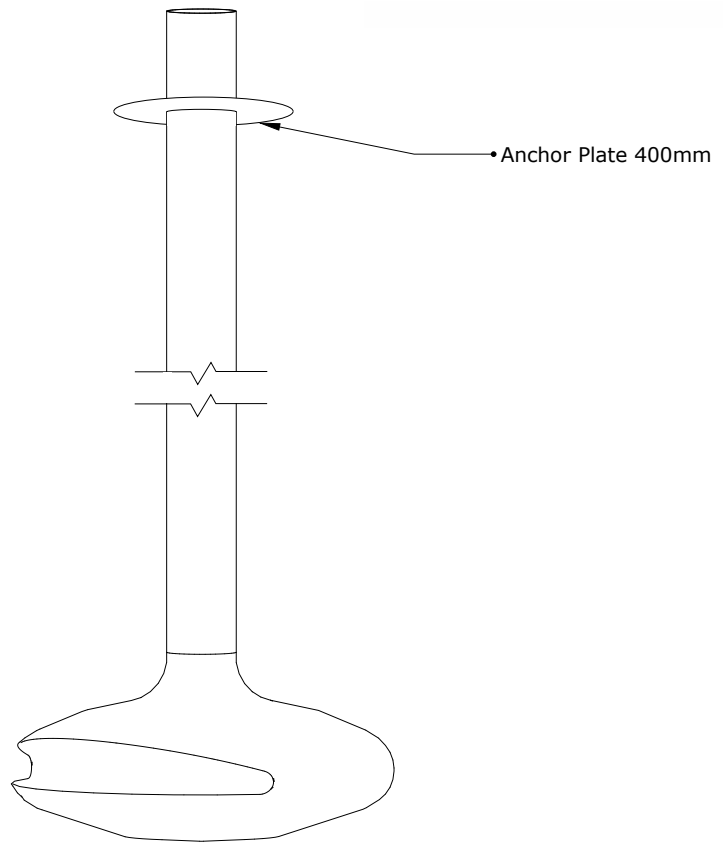

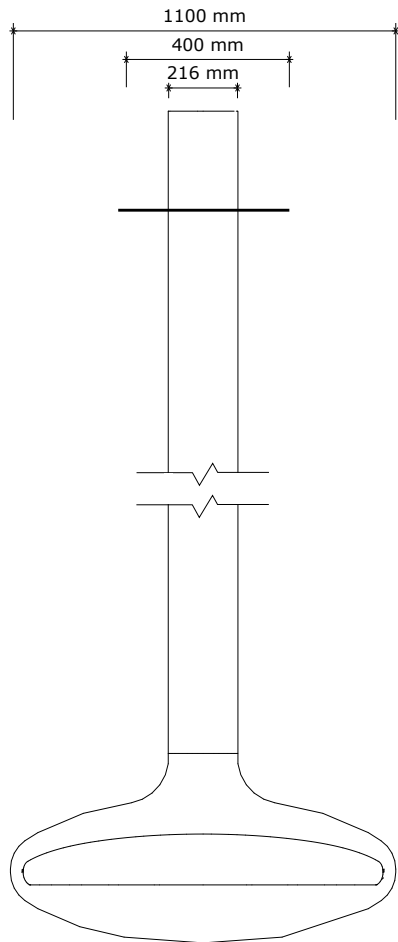

Levit Suspended Fireplace

Merging tradition with the opportunities and potential of modern life. Perfect as both a modern indoor fireplace or on the deck, this suspended fireplace is available as both wood burning or bioethanol fuelled.

The Levit suspended fireplace enables you to finish off your indoor or outdoor living space, combining the restorative properties of fire with a contemporary designer fireplace – functional art!

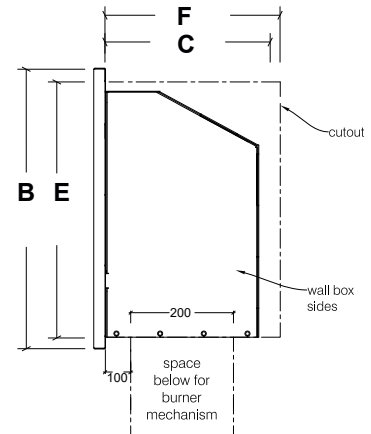

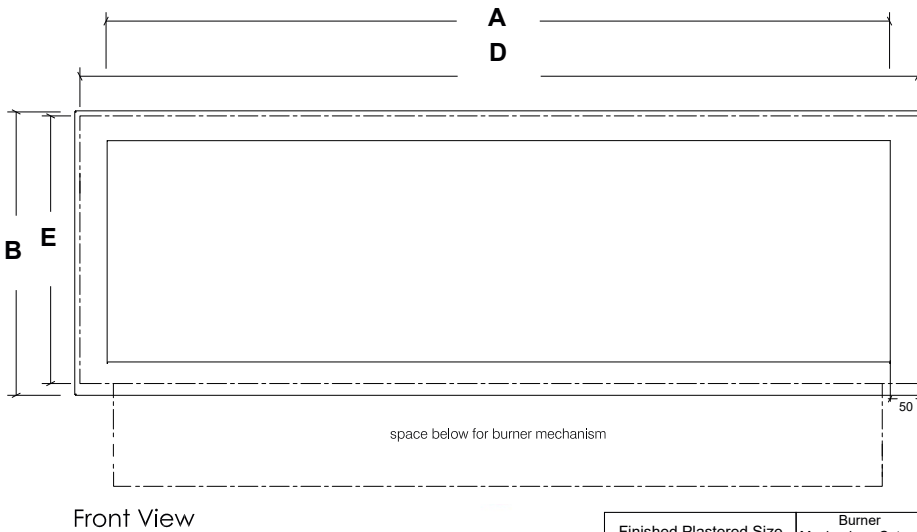

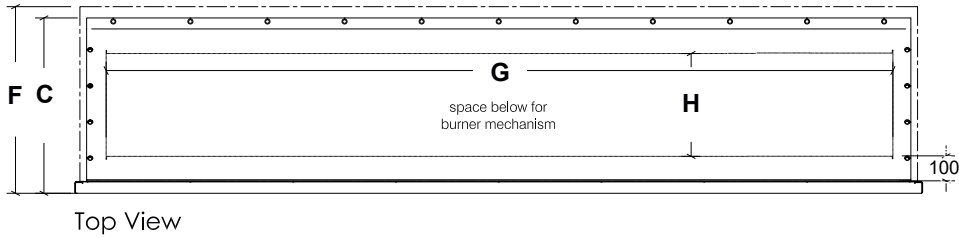

Linear Built In

Ecofire Linear range has many benefits from ease of operation to quick, effective heating. Available in six different lengths and modified with advanced clean burn technology. No chimney required - this is the perfect vent free option for open, living areas.

The Linear is achieved with 3 components i.e. the Wallbox, the Frame/Trim/Facia and the Burner. Each item available in a variety of sizes and finishes (Stainless Steel/ Black Matt Painted)
